

Pinnacle™

Syzigium australe 'AATS' DB PRK

- Very narrow growing native tree for tight areas
- Little pruning needed
- Good density

Pinnacle can reach over 10m in height but is usually much smaller in cultivation and can be pruned and maintained as low as 2 metres. The leaves are rounded, bright and glossy green in colour with the new growth being an attractive contrasting reddish brown colour.

Native tree with a thin upright form

Pinnacle has white duster flowers, followed by large, fleshy, red-pink fruits in profusion. It retains a compact upright form which makes it excellent for hedging or compact planting zones such as town houses.

Sculptured design for impact

ADVANCED TREE RANGE

DESCRIPTION Neat, narrow Lily Pili
 HEIGHT & WIDTH 6m-10m x 1m-1.5m
 POSITION Full sun to part shade
 CARE Be aware of psyllid. Trim as required
 USES Tight planting zones, along fences and driveways
 SOIL TYPE Moist, well drained soil
