

Sweeper®

Waterhousea floribunda 'DOW20' 

- Excellent screening plant
- Dense foliage
- Good performance in many projects

Sweeper is an improved variety of Waterhousea which features a heavily weeping habit.

Sweeper also makes a stunning street tree, feature plant or shade tree, already performing well in sites like WestPoint Shopping Centre in NSW. WestPoint have used large specimens for pavement plantings, creating a lovely softening effect in a harsh concrete environment. It produces large clusters of white flowers in Summer. Sweeper will withstand full sun and light frosts in cool climates. In hot dry Summer regions (non humid areas) top up watering may be required.

Ideal for dense screening

DESCRIPTION	Weeping habit, lush green new growth
HEIGHT & WIDTH	10m x 5-8m
POSITION	Full sun to part shade
CARE	Avoid hot, dry exposed areas
USES	Street tree, large screen or hedge
SOIL TYPE	Well drained to heavy clay loams
